

HUSSAIN WAJDAWALA

SOFTWARE DEVELOPER

Pimpri Chinchwad, Pune | hussainwajda786@gmail.com | +91 80857 45154

Full-Stack Developer | React, Node.js | Cloud Enthusiast

- Passionate and results-driven Full-Stack Developer with 2 years of experience building responsive web applications using React.js, Node.js, and TypeScript. Adept at crafting intuitive UIs, integrating secure backend APIs, and optimizing performance with modern techniques like code splitting and hooks.
- Skilled in cloud-based development with hands-on exposure to AWS services, containerization (Docker), and PostgreSQL/MongoDB. Currently expanding into cloud infrastructure and container orchestration (Kubernetes). Committed to clean code, scalable architecture, and continuous learning.

TECHNICAL SKILLS

Languages: JavaScript, Python, Bash, Java

Databases: MongoDB, MySQL

Frontend: ReactJs, Vite, NextJs, Tailwind CSS

Backend: Node.js, Express, REST APIs, Web Sockets

Cloud & DevOps: AWS, Docker, Kubernetes

PROJECT EXPERIENCE

TheBoringTee

May 2025 - Present

- Building a modern e-commerce web app with React (Vite) and Node.js/Express backend.
- Designed for a Gen Z audience with a sleek, responsive UI using animated UI components.
- Features include dynamic product listings, user authentication, and secure order handling.

SecureShare

Mar 2025 - May 2025

- Developed a secure file-sharing platform where users can upload and store encrypted files using AES-256 cryptography.
- Implemented PostgreSQL database to manage user details, file metadata (name, size, type), and sharing preferences.
- Enabled secure sharing features like custom passwords, download limits, and mandatory decryption keys for recipients.

Dealkaaro.com

Oct 2024 - Jan 2025

- Engineered a role-based affiliate marketing web app to manage buyer orders, mediator deals, and admin controls.
- Architected a custom server with Node.js and Express for efficient real-time data handling.
- Designed user-specific dashboards offering personalized features based on roles and permissions.
- Integrated advanced state management and real-time API communication for smooth UX.

EDUCATION

Bachelor of Computer Application

Aug 2022 - May 2025

Dy Patil International University

- Specialization In Cloud Computing

ADDITIONAL INFORMATION

Languages: English, Hindi, Gujarati.

Certifications:

- Introduction to Front-End Development
- Programming with JavaScript

Coursera (Oct 2022)

Coursera (Feb 2023)
